### About Me

Enthusiastic 3rd-year Computer Science Engineering student with a growing foundation in C ,C++ programming, Data Structures and Algorithms , and frontend development. Skilled in problem solving , teamwork, and critical thinking, with hands-on experience in HTML, CSS, JavaScript, and React.js. Passionate about building efficient, user-friendly applications and eager to apply academic knowledge to real world projects through internships and collaborative opportunities.

### Internship

#### • Sevael Technologies

- Developed and optimized responsive web applications using HTML, CSS, JavaScript, and React, improving user experience and performance across devices.  
Designed and developed the homepage and login page for Yanmar, a real-world client project, ensuring responsive and user-friendly UI.

#### • Zomato clone project

- Built a Zomato Clone web application with features like restaurant listings, search, and user authentication, using modern frontend technologies.  
Implemented a responsive UI/UX that mimics real-world food delivery platforms, improving hands-on experience in web development.
